

HYVA SKIPLoader
FAST & SAFE
AUTOSHEET COVER SYSTEMS

COVER A CONTAINER WITHIN A MINUTE

SKIPLOADER AUTOSHEET COVER SYSTEM

The Autosheet Cover System allows drivers to fully cover a container in under a minute, greatly improving productivity.

The equipment is operated by hydraulic power taken from the skiploader.

This avoids electric motors and the need for a separate electro hydraulic power pack, keeping maintenance to a minimum.

Designed by Hyva engineers to be integrated into the skiploader equipment, the hydraulics and structure are matched for strength to provide a safe and secure operation without increasing the width of the vehicle.

BENEFITS

Flexible fits all containers

Increased productivity

Robust Arms and construction

Reliable hydraulic High torque hydraulic winding motor i.c.w. spring actuation

Minimum / Low maintenance

FEATURES

Increased productivity and safety

No increase in overall width - no compromise on vehicle access onto tight areas

Integrated hydraulic power - no add on electrics or power pack

Can also be retrofitted to all makes and models

SPEED

Quick and simple to operate, keeping loading times to a minimum.

SIMPLICITY

Hydraulic power is taken from the skip-loader circuit avoiding complicated interlocks and electrics.

FLEXIBILITY

The container sheeting system is designed to cover various sizes of containers thus providing operational flexibility in all applications.

This autosheet cover system is hydraulically powered to deploy the sheet over the container in one simple operation.

110 countries
+3,500 employees
20,000 customers
+30 subsidiaries
12 production facilities

Hyva is a leading provider of innovative and highly efficient transport solutions for commercial vehicles used in transport, construction, mining, materials handling and environmental service industries.

Founded in 1979 in the Netherlands, the company has a global presence with more than 30 wholly owned subsidiaries, extraordinary service coverage and 12 manufacturing facilities in Brazil, China, Europe and India.
