## HF500 SLC

Highest quality Dutch and German made Heavy Duty cylinders

Double Chrome plated solid piston rods

High pressure filter is standard

All valves/cylinders are protected against road dirt

Passivated hydraulic piping

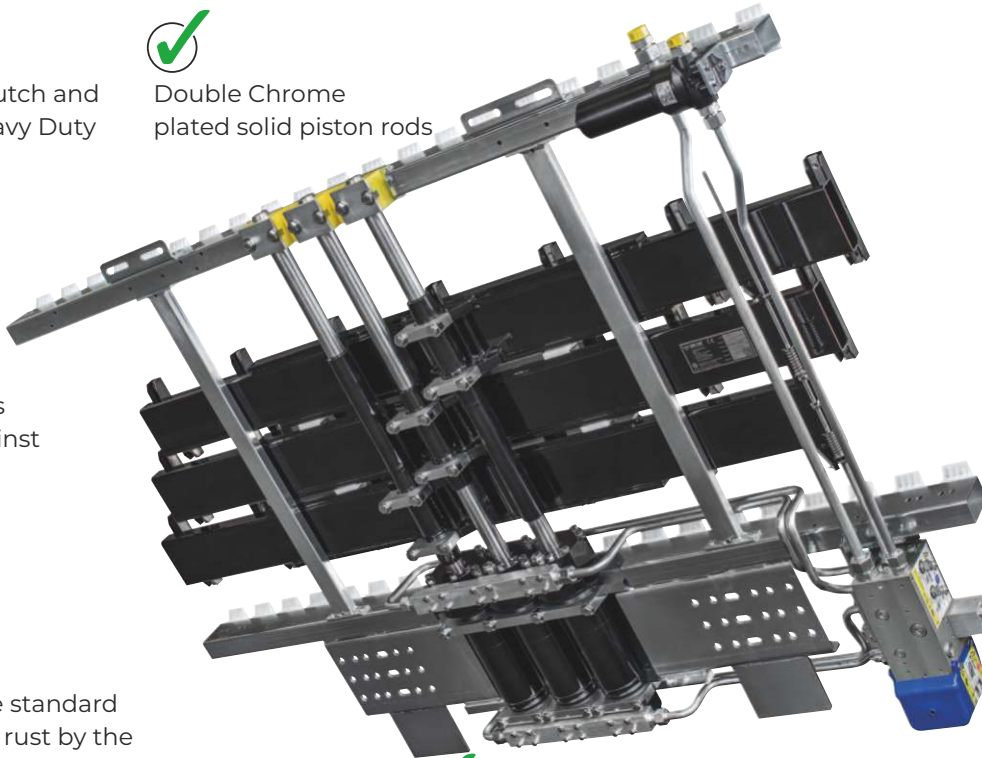

The drive units are standard preserved against rust by the best Cathodic Dip Painting (CDP) process

The control valve is positioned at the outside of the trailer for easy access

Common-rail technology

**Sustainable environmental conservation:** Because Hyva Floor fully preserves its drive units are preserved thanks to CDP and does not need to be repainted throughout its life time.
