

LEADERS IN WASTE HANDLING SOLUTION

The new satellite mode

Highlights

Good leakproofness:

The body adopts the waterproof structure without sealed back door to avoid the risk of ground leakage and secondary pollution.

Light and flexible:

Lightweight design, no collecting dead corner, able to collect waste in small and crowded residential areas.

High efficiency:

Program control with one-button operation.

Specifications

Items	Specifications
Vehicle model	SYB5041ZZZBYBEV
Chassis brand	BYD
Dimensions mm	5180×1850×2140
Fuel type	Electricity
Super Structure model	RCM04
GVW kg	4300
Charging time h	<1.5 (Fast charge)
Drive range km	<280 (Isokinetic method)
Battery type	LFP
Motor type	Permanent magnet synchronous motor
Water-proof level	IP67
Container volume m ³	4
Types of waste	Other waste、Kitchen waste
